

Spring has Sprung

Are your teeth as shiny as the beautiful bright sun?
A big, welcoming smile is a great way to meet people and make friends.

At **dr.fern's** we love our patients and want to help you keep your child's smiles healthy and sparkling.

We believe that awesome smiles start with good basic dental practices like brushing and flossing everyday.

Just like the sun rises in the morning and sets in the evening establishing a regular routine with **dr.fern** and at home leads to healthy teeth and gums and bigger brighter smiles.

To learn more about how this can benefit your child contact us to schedule your appointment with **dr.fern**.

All children should have the freedom to meet the world
with a big, wide smile.
